DRAPERY HARDWARE

FAQ: Microflex Adjustable Drapery Pin System

Questions from industry professionals

1. Q: Who is using it?
A: USA: Hospitality: Fabtex, Mason Contract, County Drapery, Collins Fabrication, etc.,
A: USA: Healthcare: TI Associates, TWR, Mason Medical, etc.
A: USA: Residential: Drapery Masters, Suncraft Drapery, Lu-Tex, Dynamic Designs Window Fashions

2. Q: Do you need special machines to fabricate the draperies including pins?
A: The best results/savings can be achieved using our specialized PFA-2000 automated machines, it can be done by hand but it's very time consuming.

3. Q: Why do you have 3 different pin sizes?
A: We have a 95mm (3 3/4") ... to accommodate the various heading sizes.
A: We have a 75mm (3")
A: We have a 55mm (2")

4. Q: Is there a plastic return pin available?
A: No, we do not have an edge pin available.

5. Q: Can you adjust the setting without having to take the draperies down?
A: Yes, the setting can be changed going up without taking the drapes down.
No, the setting can not be changed if the pins need to go down, In this situation you need to take the drapes down, slide the hook of the spine (sew in part) and start again from the top.
