FOREST BLIND SYSTEM - BS®

For a more streamlined look or when space is at a premium, roman blinds that stack neatly at the top of the window when retracted are the perfect solution. With the Blind System - BS® of Forest a sleek natural look is provided for your interior. Experience the simplicity of chain operation for Roman blinds. With an easy-to-use chain mechanism, adjusting the blinds to your desired position is effortless.

The Blind System - BS® is the most widely used and recognised roman blind in the industry. It comes with integrated velcro tape so that the fabric can be easily attached & removed. The system is always correctly alligned due to the twistlock on the cord roll support. For the ultimate convenience a motorised control option is possible. Operate the Blind System at the press of a button or by your smartphone. See for more info about motorised options check further down in this brochure.

PRODUCT INFORMATION

- Compact hand drawn roman blind system.
- For all types of light and medium weight draperies.
- Elegant shaped aluminium profile, with integrated Velcro hook tape.
- Application width: min. 38 cm & max 5.80 meter (19″).
- Available height: 3.50 meter (11.5″).
- Simple face-fix and top fix installation.
- Conic shaped drums; thus smooth and straight operation of the system is guaranteed.
- Control unit options:
  1:1 (fabric weight up to 3,5 kg)
  1:4 (fabric weight up to 7,5 kg)
- Total maximum fabric weight up to 7,5 kg.
- Colour available: white.
- Special Child Safety solution possible.
- Track finish: chromated powder coated.
- Warranty Manual System: 10 year.

FOR USE IN

Hotels, offices, residences, boats or anywhere an efficient Velcro track system for roman shades is required.

FOREST BLIND SYSTEM MAX - BS MAX®

To complement the manual range of the roman blind systems for heavier duty drapery, Forest introduces the Blind System Max®.

The Forest BS Max® is developed for taller windows and heavier fabrics. This roman blind system can go up to a height of 4.80 meter with a total weight of 13 kg. It comes with integrated velcro tape so that the fabric can be easily attached & removed.

PRODUCT INFORMATION

- Hand drawn roman blind system.
- For all types of medium and heavy weight draperies.
- Elegant shaped aluminium profile, with integrated Velcro hook tape.
- Application width: min. 38 cm & max 5.80 meter (19").
- Available height: 4.80 meter (15.75").
- Simple face-fix and top fix installation.
- Cords are easy to remove; very useful when washing or dry cleaning the fabric.
- Self-braking endless chain control units.
- Maximum fabric weight per cord roll: 4 kg and total system 13 kg.
- Colour available: white.
- Track finish: chromated powder coated.
- 10 year warranty

FOR USE IN

Hotels, offices, residences, boats, campers, planes or anywhere an efficient Velcro track system for roman shades is required.

Another solution of Forest is the motorised roman blind 'BCS®-system', developed especially for taller window frames and heavier fabrics. The tubular motor in the system is 230 Volt and available in variable voltages as required. A powerful 121 Watt motor is standard, capable of lifting blinds of up to 13 kg; other motor types - capable of up to 26 kg - are available upon request. The cord spools can hold 5.5 meter of cord.

The Forest roman blind BCS® system is suitable for all current control systems and incorporates a unique, patented cord braking system. If, for any reason, the roll down action of a blind is obstructed, the motor automatically trips out to prevent the blind leaning and the cord breaking.

PRODUCT INFORMATION

- Motorised roman blind system.
- For all types of medium and heavy weight draperies.
- Elegantly shaped aluminium profile, with Velcro Hook Tape
- Application width: min. 65 cm & max 5.80 meter (19″).
- Available height: 5.50 meter (18″).
- Simple and quick installation with Smart Klick® bracket.
- Cords are easy to remove; very useful when you want to wash or dry cleaning the fabric.
- Can be controlled by wall switch, remote control (high frequency).
- Easy to connect to building automation systems.
- Easy to connect with third party Apps (Apple Homekit or Google Assistant) by the Forest Wireless Connector.
- Cord Drums can be placed on every position in the profile.
- Maximum fabric weight per cord roll: 4 kg.
- Tubular motor also available with internal Multi receiver and electronic limit setting.
- Track finish: aluminium, chromated, powder coated.
- Warranty Manual System: 10 year.
- Warranty Motorised System: 5 year.

FOR USE IN

Domestic and/or project market, or at any location where a high quality and smooth operated motorized blind system is requested.

MOUNTING
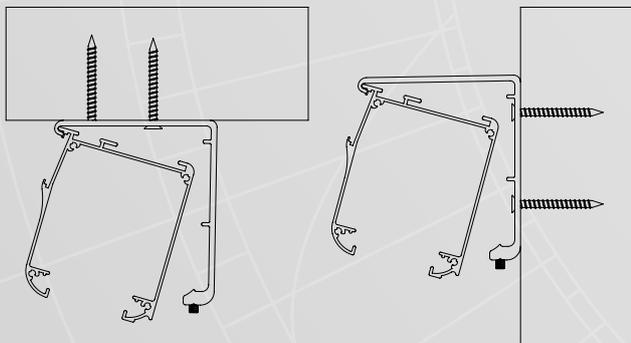

Wall and ceiling fixing is possible

ADJUSTING MOTOR

The limit settings for the tubular motors can be done as follows:
- S motors, mechanically by means of an allen key.
- E motors, electronically by means of a Forest Remote or RF Wall Switch.

CONTROL OPTIONS

Choose your preferred control option.

FOREST WIRELESS CONNECTOR

The Forest Wireless Connector provides an easy solution to make Forest motorised roman blinds 'smart.' When combined with a smart plug, you can effortlessly control the roman blinds through a mobile app. Controlling the motorised blind system by your smartphone or tablet, you can create and schedule customised room scenes that allow your blinds to operate on their own throughout the day.

Scan for more info

If you prefer to use the Forest Connect App, you can opt for Forest's smart plug. If you wish to operate your blinds with Apple HomeKit, Amazon Alexa, or Google Assistant, you will need a compatible third-party smart plug that works with these smart home apps. This RF device can also be seamlessly integrated into the most common building management systems, including systems with dry contacts.

FOREST DIAMOND SENSE REMOTE

15 Channel remote control, possibility to control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 meters. Including magnetic wall support.
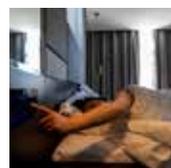

BUILDING AUTOMATION / HOTEL CONTROL

The BCS® system can be connected to any Building Automation system, by relay control. Also possible using the Wireless Connector.

WORKS WITH

KNX ®*
