MCS TRACK 2/3 GLIDE PRODUCT INFORMATION

- Asymmetric Reversible Multi Channel System, for use as a 3 or 2 channel track.
- Profile thickness only 8 mm.
- Maximum fabric weight 15 kg per running meter of the track.
- Easy installation thanks to 4,5 mm pre-drilled every 40cm. For countersunk installation, 10 mm cover caps available. The profile is also available without pre-drilled holes;
- Available in white and anthracite.
- KS components can be used.
- FES also applicable on MCS.
- Optional pelmet profile.

FEATURES

- The weight of the track is 770 gr/mtr.
- Aluminium extrusion, powder coated, lubricated.
- Available in 6 meter length.
- One side of the profile has 3 channels, asymmetrically placed, to accommodate for a full sheer curtain, and two separate blackout curtains; these blackout curtains can overlap each other to prevent light leakage. The wider the fabric panels, the bigger the overlap will become.
- The other side of the profile has 2 channels, symmetrically placed, to accommodate for a sheer and blackout curtain in a traditional set-up.
- Optional pelmet profile.

MCS TRACK 3 GLIDE PRODUCT INFORMATION

- 3 glide Multi Channel track System.
- Maximum fabric weight, 30 kg per running meter of track.
- Easy installation thanks to pre-drilled holes (every 50cm).
- Sufficient spacing between the channels to allow for different pleating options.
- Available in white.
- KS components can be used.
- FES also applicable on MCS.

FEATURES

- The weight of the track is 1140 gr/mtr.
- Aluminium extrusion, white powder coated, lubricated.
- Available in 4 and 5 meter length.
- Holes for fixing the track are pre-drilled every 50cm.
- Plastic cover caps for the fixing holes are available.

MCS TRACK 2/1 GLIDE PRODUCT INFORMATION

- Reversible Multi Channel System, for use as a 2 or 1 channel track.
- Profile thickness only 8 mm.
- Maximum fabric weight 15 kg per running meter of the track.
- Available in white.
- KS components can be used.
- Optional pelmet profile.

FEATURES

- The weight of the track is 330 gr/mtr.
- Aluminium extrusion, powder coated, lubricated.
- Available in 6 meter length.
- One side of the profile has 2 channels, to accommodate two separate blackout curtains; these blackout curtains can overlap each other to prevent light leakage.
- The other side of the profile has 1 channel, to accommodate.
- for a sheer or a curtain in a traditional set-up.

FOR USE IN

Hotels, offices, residences, boats, campers, planes or anywhere an efficient Multi Channel track System is required for curtains and drapes.

MCS GLIDE PELMET PROFILE

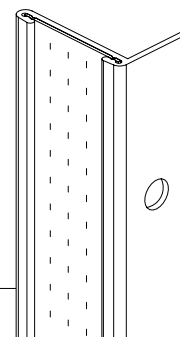

A specially developed pelmet profile, aluminium extrusion, which can be placed on top of the MCS 2/3 and 2/1 track during installation and secured in place. The perfect solution if no separate pelmet or curtain box has been foreseen.

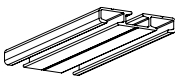

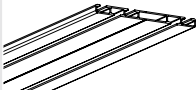

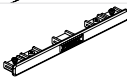

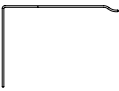

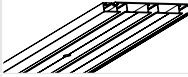

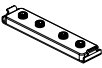

- Easily creates a soffit for decorative finishing.
- Pelmet profile fits on both sides of the curtain rail.
- Available in white.
- Available in 4 and 6 meter length.

BLACKOUT PROFILE

The ideal solution to create a perfect blackout on the side of each curtain. The Velcro Hotel Profile is suitable for any Forest curtain rail system. The L shaped profile comes with pre-drilled holes every 50 cm, allowing for an easy fixation on the sides of the window. When the curtain hems are lined with Velcro loop tape, the curtain can be easily fixed against the profiles, eliminating light leakage.

- Available in white.
- Available in 6 meter length.
