- available lengths DS: 4,5,6 and 7 mtr (grey, anthracite & black only in 6 meter)
- available length DS XL & DS-XL LED: 6 mtr
- DS also bendable
- max fabric weight DS: 8kg per mtr
- max fabric weight DS-XL & DS-XL LED: 15 kg per mtr
- DS-XL LED has been awarded for the Red Dot Award 2021
- can also be used with wave pleat system (FES)

## MCS | MULTI CHANNEL TRACK SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- elegant Multi Channel track System for several curtains
- asymmetric Reversible Multi Channel System, for use as a 3 or 2 channel track
- also available in a compact version with 2 or 1 channel track
- available in 2 colours: white and anthracite
- available length: 6 m
- maximum fabric weight: 15 kg per mtr
- sufficient spacing between the channels to allow for different pleating options
- blackout profile optional
- optional cover cap available, for creating an easy pelmet cover
- easy installation thanks to pre-drilled holes
- can also be used with wave pleat system (FES)

## FES | WAVE SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- system that gives a modern and special folding design to curtains
- suitable for 3 types of carriers: Easysnap, Easyflex, Easywave
- available in 60% (8,0 cm), 80% (6,0 cm) and 100 % (5,4 cm) width
- the wave heading stacks back neatly, taking up less space than traditional pleated headings
- depending on the fullness selected the FES System can be more economical than traditional curtains
- ideal for large and high spaces
- the system can be installed onto all Forest manual, corded (except CKS) and motorised tracks and curtain rod systems
- available in 2 colours: white and black

## FMS | MOTORISED CURTAIN TRACK SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- the FMS track is world's slimmest and most reliable motorised track system
- available in 3 versions: FMS, FMS Plus and FMS Plus Recess
- FMS is bendable, both with an inside and outside corner with a radius 20cm
- available in white, grey and black (FMS Plus only white and black)
- available lengths: 5.8 and 7 meter (FMS Plus only 7m)
- smooth and noiseless belt driven track
- Shuttle® motors can be used on the FMS® System
- Recess fixation possible by recess profile in combination with FMS® Plus track

## SHUTTLE SERIES CURTAIN MOTORS

### APPLICATION:

Residential and commercial market

### FEATURES:

- high-end motorised curtain track motor
- available in 5 versions, S, M, L, AC and iOn
- works in combination with all Forest motorised tracks
- can be used with curved track
- available in 4 colours: white, grey, anthracite and black
- can be controlled with app, remote control, wall switch or by hand
- easy integration in Domotics
- due to modular design makes it the most versatile curtain motor
- also available as wireless battery pack motor (iOn)
- maximum fabric weight : KS 70 kg per meter (only Shuttle M)

Compatible with:

## FMS DUAL | MOTORISED TWO CHANNEL TRACK SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- a two channel motorised track
- only one Shuttle motor is needed
- the ultimate motorised hotel track
- especially designed to create an overlap
- available colour: white
- available length: 7 meter
- ceiling mounted
- easy installation thanks to pre-drilled holes
- smooth and noiseless belt driven track
- can also be used with wave pleat system (FES)

## MRS | MOTORISED ROD SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- motorised rod system with carriers
- available in dimension: 28mm
- available in 8 colours: white, gold, inox-an, inox-pc, antique-pc, taupe-pc, anthracite and chrome
- available length: 5.8 m
- wide range of decorative finials available
- the motor is fitted at the backside of the rod, to ensure the ultimate look of the curtain
- all Shuttle® motors can be used on the MRS® System
- can also be used with wave pleat system (FES)

## BS / BS MAX | ROMAN BLIND

### APPLICATION:

Residential and commercial market

### FEATURES:

- corded drawn roman blind system for all types of medium and heavy weight draperies
- "elegant shaped aluminium profile, with integrated Velcro hook tape e so that the fabric can be easily attached & removed"
- simple face-fix and top fix installation
- removable conic shaped drums; thus smooth and straight operation of the system is guaranteed
- convenient interchangeable operating side
- self-braking endless chain control units (1:1 and 1:4)
- available length: 5.8 m
- max. height: for BS 3.50 meter and for BS MAX 4.80 meter
- max. fabric weight: for BS 7.5 kg per meter and for BS MAX 13 kg per meter

## BCS | MOTORISED ROMAN BLIND SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- elegantly motorised roman blind system for all types of medium and heavy weight draperies
- elegant shaped aluminium profile, with integrated Velcro hook tape e so that the fabric can be easily attached & removed

## ATLANTIS AND ATLANTIS SLIM-LINE | ROLLER BLIND SYSTEM

### APPLICATION:

Residential and commercial market

### FEATURES:

- silent moving, motorised and corded roller blind system
- available in dimensions: 35 mm, 40mm, 50mm and 60mm
- easy installation thanks to adjustable brackets
- width up to 400 cm (60 mm T6 tube)
- maximum total weight 26 kg with 13Nm tubular motor
- ultra silent motor: <44 dB
- 3 Nm, 6Nm and 13 Nm motor types available, with and without integrated receiver for Forest Multi remote
- easy to connect to building automation systems
- control by third party app in combination with Forest Wireless Connector and Forest smart plug
- tubular motor also available with internal multi receiver and electronic limit setting

Forest Group is specialised in the development, production and supply of highly innovative curtain tracks and window coverings. We offer different curtain track solutions especially made for the hospitality industry. Whether you choose for our motorised curtain tracks or rods, blinds or manual curtain tracks your client will experience 'the Forest Factor'. Which stands for a unique combination of smooth hanging curtains, comfortable luxury and optimal ease of use.

## THE WORLD BEHIND YOUR CURTAINS

Almost thirty years ago it started with a flexible aluminium system, better known as Forest KS® system. The range was expanded at a rapid pace, always focusing on functionality and quality. The technologies conquered the world. Hotels all over the world are satisfied users of Forest systems and even iconic hotels like the Palazzo, the Venezian, both in Las Vegas and the mega hotels on the Palm Island in Dubai were equipped with kilometers of tracks from Forest Group.

Our own research and development department continuously works on new developments and technical innovations, from simple solutions to advanced motorised systems. We can therefore proudly say that not just our tracks but also our Shuttle® motorised system are '100% made and developed by Forest'.

Forest Group supplies its products in more than 100 countries worldwide and has sales offices in The Netherlands, United States, China, United Arab Emirates, United Kingdom and Poland, ensuring a global availability of our products.

Separate brochures per system with further details like applications, technical properties and cross-cuts of the profiles are available online.

Some well-known and recognised features of the Forest Group curtain track systems are:

- Wide range of track solutions
- Ultra silent in operation
- Smooth and easy traversing
- Easy to bend
- High quality track systems
- Most reliable motorised curtain track systems
- Easy installation: carriers can be clicked into the track
- Easily incorporated into any hotel automation system
- Sustainable choice due to long lifespan and unique 10-year warranty

The World Behind Your Curtains starts with Forest Group!
